The briefs shown below provide extensive information about careers that “fit” your personality. You will not like all of them, but the goal is to find *some* that you want to learn more about.

IMPORTANT: DO NOT DISREGARD ANY CAREERS BASED SOLELY ON NAME.

While I use the generic categories assigned by the USBLS (US Bureau of Labor & Statistics), these typically include MANY specialty groups within them.

The opening paragraph in each section explains WHAT specialty I am suggesting is a good fit for you and why.

At a minimum open each and read the 1st paragraph.
